

nVidia MCP2 Drivers version 3.77 for AU31 Installation Instructions

1. Download the driver EXE file below.
2. When asked to open, or to save the file click save.
3. When the "Save As" Dialog box opens, choose a location to save the EXE file.
(Remember where you save the EXE file!)
4. Extract the driver install files onto your computer.
 - a. Find where you saved the EXE file in step 3.
 - b. Double-click the EXE file.
 - c. Click the "Unzip" button in the dialog box that appears. This will place the necessary driver install files in a folder called "nVidia" on your desktop.
5. Install the new motherboard drivers by double-clicking on the Setup.exe file in the "nVidia" folder on your desktop.
6. Follow any instructions in the wizard that appears.
